

PROFILE

Mr. Gilberto Sarti undertake a gainful occupation from September 1979 after two years of experience developed sites in Italy and abroad in English-and French-speaking countries. The study is based in Rimini.
The core business of the study is the structural engineering, but over the years have also developed some major architectural projects.
The study is composed of employees and contractors who carry out their activities mainly within the organizational structure coordinated by Mr. Sarti, firsthand. This organizational structure provides the customer a detailed and accurate various stages of design, execution times rather rapid and high quality.
Throughout its history the firm has completed projects for both public and private work in Italy and abroad, working with the most famous architects of national and international scene and meeting the needs of clients are very important.
Since 2014 Mr. Gilberto Sarti has acquired the license to structural practice in Dubai (UAE).
